Stockley Park

Set in beautiful rolling Thames Valley countryside, the many fully landscaped acres of Stockley Park are home to dozens of highly successful companies, award-winning architecture and an amazing 140,000 specially planted shrubs and trees.

Woodland, tree-lined lakes, carefully tended gardens and secluded spots for relaxation abound, and make this the best-possible working environment and a positive pleasure for any visitor. And coupled with brilliant links to nearby Heathrow, and both the M4 and rail into London, it's no surprise Stockley Park is one of Europe's most sought-after dedicated business locations.
