

REPUTATIONS

The dramatically banked, world-famous Brooklands racetrack was the first and fastest motorsport circuit in the world. Hosting the first British Grand Prix, the track had a reputation for both bravery and speed, producing a pantheon of celebrated record-breakers, winners and champions.

Reputations for success and outstanding achievement live on at Brooklands in the many high profile companies now based at this high-kudos location. Adding to the site's prestige, Velocity's neighbours include Mercedes Benz, BAE Systems, BP, Proctor & Gamble, Alliance Boots, Sony, Kia Motors and Royal Caribbean Cruises.
